

LUXURY HOME INSPIRATION FROM GLORIA & DAVIDE OF TAILORED LIVING INTERIORS

—
Interiors

We caught up with London based award-winning interior design studio Tailored Living Interiors to find out what have they been up to. The studio specialises in high end residential interiors. The team offers bespoke design services tailored to their client's needs, putting a strong emphasis on detailing, luxury, comfort, calm, practicality and sophistication. Their services range from a single room to a full “turn-key” interior service, comprising interior architecture through to furniture design and styling.

We met with Gloria Sanchez, Director at Tailored Living Interiors and Davide Mancinelli Creative Director and asked them to show us some of the studio's favourite projects.

We love the very elegant Reception Room in the image on the right. It is part of a large family home in Barnes. We had already designed and assigned areas the house for an informal family area and a cinema room. Therefore, there was scope to showcase this area as a majestic room. Blue is one of the go to colours for the autumn/winter 2018 in interiors. However we chose it last year to help us inject a timeless and classic yet contemporary feel to this reception room. It took us longer than usual to find the perfect shade of midnight blue velvet but it was worth the while as the final room exudes elegance and sophistication.

This master bedroom above is not only a favourite bedroom from our studio portfolio, but also one of our top Instagram hits. At TL we love the luscious floor to ceiling and wall to wall headboard. Incidentally this was one of the first headboards we designed to this size and scale. We love the look so much that we have since created other equally large headboards in different designs and finishes. Keep an eye on our web and Instagram page for updates on two new ones currently in the pipe line. They add a truly luxurious feel to any bedroom. Don't miss the layering of lovely textures; it makes the room feel really cosy and luxurious.

Making an entrance always counts, and this one in Dulwich Village is all about colour contrast, reflections and intriguing textures layered to create a stunning effect. We love the sumptuous jewel colour of the armchairs, providing an elegant contrast and adding a touch of decadence against the rich textured wallpaper. This was a very challenging project as the client loves colour and wanted the final result to be elegant and sophisticated whilst simultaneously using vibrant colours. We were delighted that the final result was not only loved and admired by our clients, but also helped to substantially increase the value of the property. The client undertook a property valuation before and after the renovation and she was beyond excited with the final figure.

Whilst we browse through the portfolio of TL's perfectly manicured homes, we asked Gloria & Davide: What are some of the biggest design trends that clients are requesting at the moment? Whilst people still like open spaces, particularly when it comes to kitchen dining area and or family area, we are finding an increased number of clients asking to close spaces and have separate living rooms. It would appear that the "close living room" is undergoing somewhat of a renaissance.

Tailored Living Interiors is a studio to watch out for as they are quickly becoming a well renowned name within the interior industry. Recommendations from clients have been instrumental in driving their growth over the last five years. They have an excellent track record in getting their impeccable interiors published in magazines and their list of happy clients is equally as impressive as the testimonial section of their website illustrates. Gloria is extremely proud to declare that all her clients to date are satisfied clients, with some even having become great friends. Many recommendations have come out these jobs, and indeed the same clients have employed us on other projects also which is testament to their level of satisfaction with our work. 2018 has been a truly exciting year for Tailored Living Interiors. the team have been working on some lovely projects that they will be able to share soon with us. Keep an eye on their Instagram page @tailoredlivinginteriors.
